**Venue: Sport hall „Banja-Kanjiza”, 24420. Kanjiža, Narodni park b.b.**

## **Introducing township Kanjiža**

Kanjiza is situated on the right bank of the Tisa river, in the most northern part of Serbia. The municipality, bordering in the east with the Tisa and the municipality of Novi Kneževac, in the south with Senta, in the west with Subotica and in the north with the Serbian-Hungarian state border, has the surface of 399 square kilometers.

Kanjiza is one of the most northern municipalities in the country and, because of the new state border crossing, it rightfully bears the title "The Gate of Europe". It is a true plain municipality with vast agricultural grounds, medicinal thermal spas of high value, economy that puts natural wealth to use, village tourism that keeps expanding, the Tisa that blossoms every summer and hospitable, hard-working people. Kanjiža is a Town of Silence - many have written and said this about it.

Thank you and we look forward to working with you in these areas.

Yours Sincerely,

President of VAMP
