HISTORY OF DISCO FREESTYLE

- The crucial components of Disco Freestyle are acrobatic elements. In order to achieve the highest scores from adjudicators dancers need to execute acrobatic elements correctly and without an unnecessary risk. Execution of each acrobatic element should be divided into three (3) phases: preparation, execution and landing. Preparation is a moment when a dancer finishes his/her dancing movement and starts execution of the acrobatic element. Transition between these two elements should be smooth and in accordance with the musical melody and rhythm. Appropriate preparation is usually followed by the correct execution. Execution is the way how the element is being performed (positioning of dancer's body, balance etc). Landing is the final phase in the execution of the element. Having finished the execution of the element dancer should place himself/herself in a balanced position. Transition between landing and entering the next step should be performed nice and smoothly in accordance with musical melody and rhythm.
- The current version of disco freestyle as a competitive discipline is a fusion of the following genres:
 - ✓ Classical dance (spins and jumps)
 - ✓ Jazz (isolations, core and connecting steps, spins and jumps)
 - ✓ Modern
 - ✓ Rock'n'Roll (footwork, mostly kicks)
 - ✓ Aerobics (footwork)
 - ✓ Gymnastics and acrobatics elements

Dancers should build their choreography focusing on music interpretation, technique, expressiveness and gymnastic skills.

COMMON RULES

- For all the situations not mentioned in these regulations, decisions will be made by the RESTRICTED TECHNICAL COMMITTEE and the IDF GENERAL SECRETARY.
- Dancer's age is considered with referral to the calendar year (1st January - 31st December). Dancers who participate in Ranking Competition that starts in October will be considered with referral to the following calendar year (which means one (1) year older). Age categories are divided as follows:
 - ✓ **MINI:** All dancers from the age of six (6) to the age of nine (9) (Solo – Duo – Couple – Small Group – Formation - Production).
 - ✓ **YOUTH:** All dancers from the age of ten (10) to the age of thirteen (13) (Solo – Duo – Couple – Small Group – Formation - Production).
 - ✓ **JUNIOR:** All dancers from the age of fourteen (14) to the age of sixteen (16) (Solo – Duo – Couple – Small Group – Formation - Production).
 - ✓ **ADULT:** All dancers from the age of seventeen (17) (Solo – Duo – Couples – Small Group – Formation - Production).
- Having reached the age limit for each category, dancers pass to the older category automatically.
- Pace (beats per minute) of music pieces must be as follows:
 - ✓ **MINI:** 32 – 34 BPM
 - ✓ **YOUTH – JUNIOR - ADULT:** 34 – 36 BPM
- Only **Disco Dance** music pieces may be used. Tracks must be in accordance with the following requirements:
 - ✓ Duration and pace limits in line with rules for each category.
 - ✓ Visibly exposing dancer's: Start Number, Nationality, Name of a Club/School, Title of the Presentation, Duration, Name and Surname, Discipline as well as Age and Dance Category.
- 'Beat' is a basic time unit of a music piece. The 'beat' is the pulse in the rhythm of a song. Tempo (pace) of a music piece is indicated in beats per minute (BPM). In order to indicate music pace one needs to count beats over the time of one (1'.00) minute and divide them by four (4). **EXAMPLE:** one counted 150 beats over the time of one minute. In order to indicate music pace the following equation should be used: **150 : 4 = 37,5 BPM**. This means that music pace of the music piece is 37,5 beats per minute. To dance '**in time**' means to follow the beats (**one**, two, **three**, four) with body movements (arms, shoulders, head etc.) and execution of figures. If a dancer does not follow the beats, which means moves faster or slower than has been determined by the beats, it means he/she dances '**out of time**'. **A very important element of dancer's performance is 'Interpretation'. Interpretation is connected to musical melody. Melody is a sequence of musical notes arranged in succession, in particular rhythmic patterns of changing events, into a form of a recognisable unit. Interpretation should be understood as dancer's ability to adapt and apply movements and acrobatic elements into the melody.**
- Dancers / Groups who fail to respect the rules will be subject to the following penalties:
 - ✓ **Dancers/Groups performing without their start number**
 - ✓ **Dancer's fall**Will be given 5 (five) points penalty.
- Dancers/Groups whose/who:

- ✎ Dancers **are obliged** to perform **minimum three (3) different Acrobatic Elements which might be individual or combined. There is no limits with regards to the maximum number of acrobatic elements allowed.** There can be no steps executed between the acrobatic elements of which the combination is composed. The combination where acrobatic elements are divided by other steps is not considered a combination. As far as evaluation of combinations is concerned Adjudicators assign points for the most difficult element of the combination and then add one (1) point for each of the remaining elements in the combination; eg.: a combination of Somersault, Handstand and Kippe (head spring) should be evaluated as follows:

- ✓ An adjudicator assigns points for the Somersault (which is the most difficult element of this combination) and then adds one (1) point for the Handstand and one (1) point for Kippe (head spring).

- ✎ The same evaluation must be applied in Small Group – Formation – Production categories when dancers perform various acrobatic elements at the same time.
- ✎ There are no restrictions regarding the acrobatic elements executed by Youth, Junior or Adult dancers; all acrobatic elements may be performed. **Dancers who participate in Mini age category are allowed to perform only the gymnastic and acrobatic elements described in the IDF Technical Booklet “Safety Level MINI”.
